

Packaging that adds value to your business

Through 35 competitive years, Alpha Plastomers has persistently innovated in the plastics packaging sector. We became the first Indian company to offer flexible and rigid packaging solutions as we constantly evolved by replacing products and meeting the needs of time. Our clientele include FMCG companies, electronics, frozen foods, cosmetics and many more in domestic as well as global markets. In addition to manufacturing, Alpha group offers custom tooling capabilities, in-house design and engineering services . We have become one of India's leading packaging solutions provider for primary and secondary packaging industry.

At Alpha, we strive to build a place where people can discover innovative packaging solutions that exceed expectations of all stakeholders. We work to earn respect and loyalty of our customers by adding value to their business, improve community that we live in and encourage our employees to give their best, leading to higher results.

(POF) SHRINK FILM

A Shrink Film that shields the content inside the packing from dust and moisture. Our environment friendly POF do not fog and come with high gloss.

Environment Friendly

High Gloss & Transparency

Prevents from Dust & Moisture

Easy to Use

No Smell & No Smoke

Highly Cost Effective

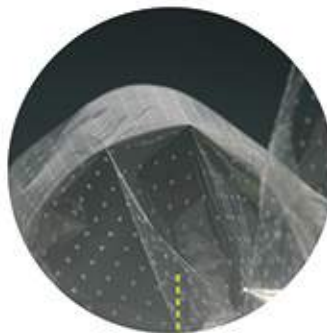

VALUE ADDITIONS

- 6-Color Printing
- Available as pouches
- Available as sleeves

QUALITY POLICY

- Facility conforming to ISO 22000 standards
- FDA Approved
- REACH & RoHS Approved

COLLATION SHRINK FILM

This film comes with extra strength and holds the products together in a bundle. The highlight here is its ability to be printed and is the perfect choice for branding.

Highly Durable

Good Printability for Branding

Good Shape Adaptability

Good Transparency

Flexibility of Packing Quantity

Prevents from Dust & Moisture

APPLICATIONS

- Soft-drinks
- Milk and flavored dairy products
- Brewery
- Mineral Water
- Food (cans, pots, jars)
- DIY, homecare
- Hygiene and cosmetics
- Chemical products

VALUE ADDITIONS

- 6-Color Printing
- Colored Film

Thickness - 30 to 250 microns

Width - 400 to 1800mm

MULCH FILM

This black and silver film guards your cultivation from insects and wild weeds. It improves the crop growth by preventing water to evaporate and also protects the necessary nutrients.

Prevents Weeds

Reflects UV Rays

Prevents soil erosion

Lower Water Consumption

Keeps Out Insects

Cost Effective

OUR PRODUCT

TYPES OF PLASTIC MULCHES

- ... **BLACK MULCH**
Conserves moisture in soil
- ... **CLEAR OR TRANSPARENT MULCHES**
Disinfects the soil to reduce soil borne diseases and weeds
- ... **TWO SIDED MULCHES**
Absorbs specific wavelengths of the sun's radiation
 - ... **YELLOW/BLACK**
Attracts certain insects and acts as a trap for them
 - ... **WHITE/BLACK**
Cools the soil
 - ... **SILVER/BLACK**
Repels some aphids and thrips
 - ... **RED/BLACK**
Reflects radiation into plant canopy changing ratio of R:FR light

RESPONSE OF PLASTIC MULCH ON THE YIELD OF CROPS

Crop	Thickness of mulch film (micron)	Increase in yield(%)
VEGETABLES		
... Chilli	25	50-60
... Cauliflower	25	40-50
... Tomato	25	45-50
... Capsicum	25	35-45
... Okra	25	50-60
... Brinjal	25	30-35
FRUITS		
... Apricot	100	30-35
... Peach	100	30-35
... Guava	100	25-30
... Kinnow	100	45-50
... Pomegranates	100	35-40
... Strawberry	25	40-50
OTHERS		
... Areca nut	50	25-30
... Ground nut	07	60-70

PET BOTTLES AND JARS

Our plastic bottles assure no leakage or breakage. They are extremely light weight and come in multiple sizes and shapes. Your product or your branding will not be overshadowed as these bottles are fully transparent.

Light-
Weight

Alpha is one of India's largest manufacturer of single-stage PET bottles. Alpha Plastomers was instrumental in introducing PET bottles in pharmaceutical industry in 2004 using single stage ISBM machines. Today, we are catering to world's leading brands in pharmaceutical, FMCG, and cosmetics industries.

QUICK INFO

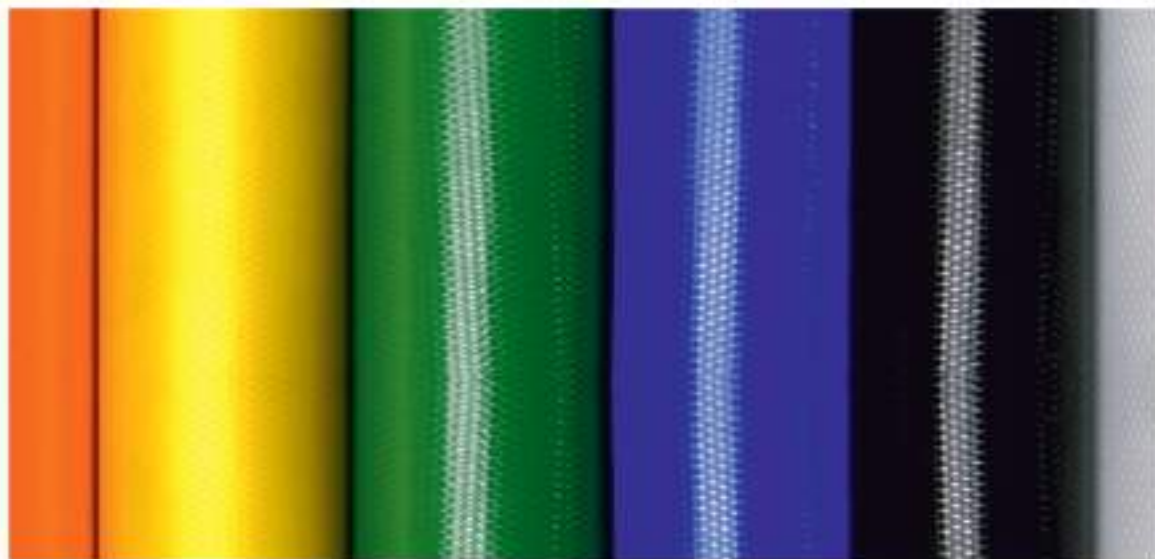

- State-of-art R&D facility
- In-house mould maintenance
- An ISO 9001:2015 Certified facility
- Products packed in Class 10,000 clean room

ADVANTAGES OF SINGLE STAGE PRODUCED PET BOTTLES

- Greater top-load bearing capacity
- Odour-less since polymer is heated only at high temperatures
- Improved gloss
- Accurate neck diameters to prevent leakages
- Consistent thickness around the bottle

Sizes available from 10ml to 1000ml
Can produce customer or product specific bottles

APPLICATIONS

- Rubber Industry
- Tyre Industry
- Conveyor Belting Industry

COLOUR OPTIONS

- Milky White
- French Black
- Red
- Yellow
- Natural
- Others

Thickness - 40 to 150 microns

Width - 100 to 1200 mm

LDPE EMOSS FILM

We are instrumental in providing to our valuable customers excellent quality Embossed Film. These are manufactured using quality basic raw materials in order to meet the international quality standards. The diamond shaped embossing in the film helps in the easy removal of air between the film and the rubber while calendering resulting in easy and distortion free removal of the film from the rubber.

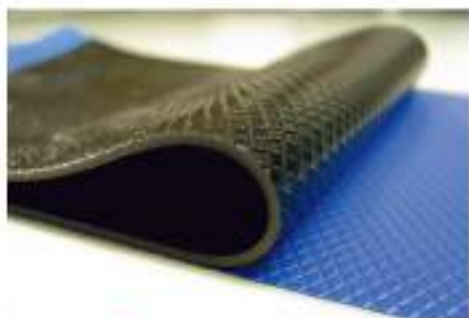

Maintains stickiness & cleanliness

Economizes volume and storage

Easy Peel Off

Available in different colours

High Strength

Diamond shape embossing

New Developments

Printed POE

First of its kind, we are offering printed POE Shrink film on Flexography machine. With capability of up to 6 colors, we can do jobs of any complexity.

Emboss Film

The Emboss Film also known as "Release Film" has diamond shaped embossing on the film to help remove air between film and rubber. Ideal for manufacturers of tyres, tread & bonding gum, conveyor belt, and other rubber coated fabrics.

Antifog Film

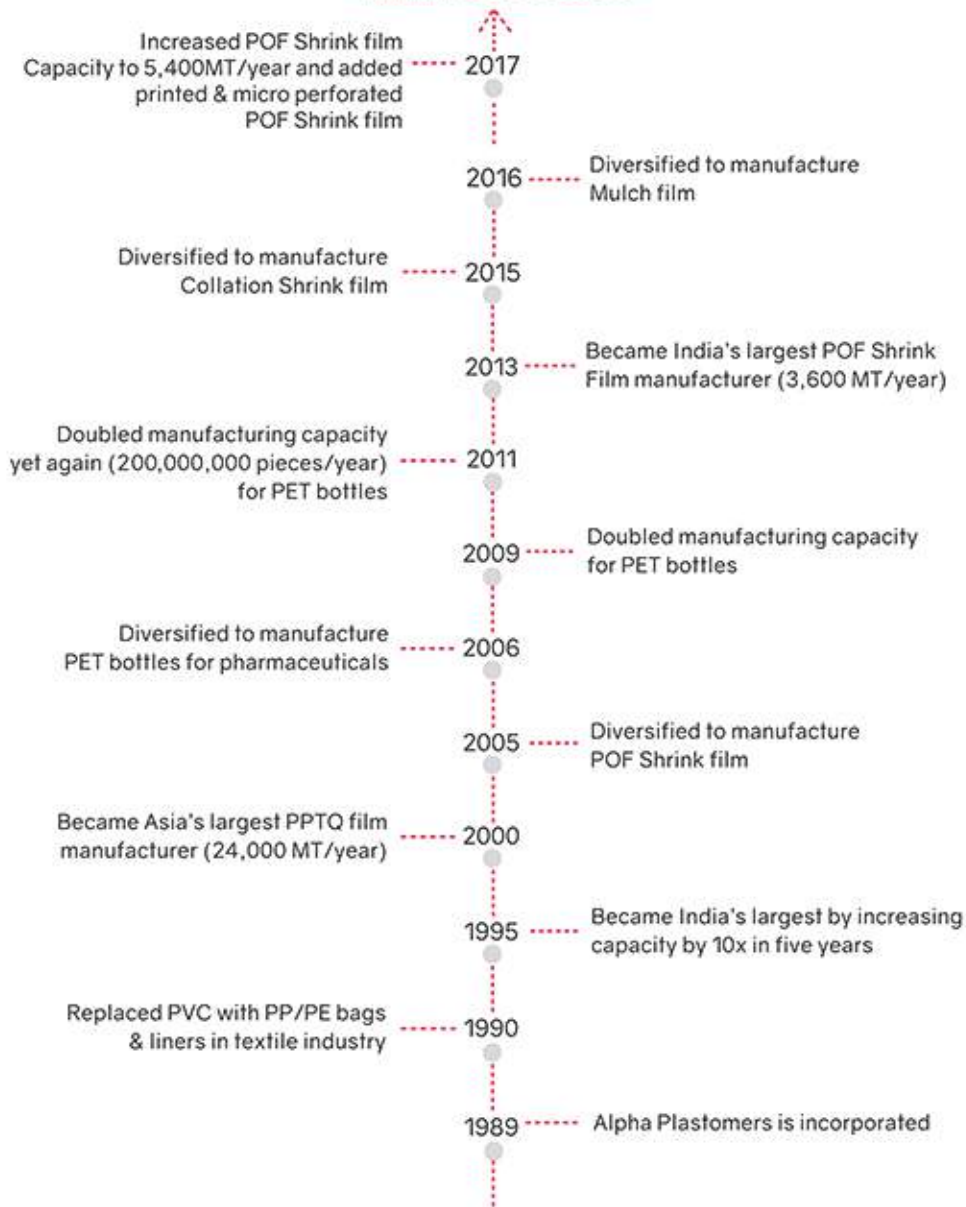

Unique anti-fogging properties are ideal for shrink wrapping and shipping fresh fruits, vegetables, and meats requiring refrigerated presentation. It removes "water due" from the film, allowing 100% visibility of your product.

Micro Perforated Film

Small holes throughout the film allow the product inside to "breathe", making it ideal for packing bakery products, and delicate fruits and vegetables such as mushrooms.
